APPLICATION GUIDELINE

Your problem-Our concern

FAIRMATE STAMPED CONCRETE

Step:1 Sub-grade Preparation for the application of FAIRMATE STAMPED CONCRETE

The sub-grade makes a big difference in the overall performance and structural integrity of the slab. It must be well-compacted which will help prevent drainage and can prevent soil erosion under the concrete. The concrete should be placed as close to its final destination as possible.

Step:2 Application of FAIRMATE STAMPED CONCRETE

Before starting the application collect the step-by-step method of stamped concrete and then after go for the application. Apply the product as per guidelines of the manufacturer. Check the availability of approximate required material and equipments suggested by the manufacturer.

PRODUCT SUGGESTION
